

Academic Survey Questionnaire

Risk Perception and Post-Purchase Problems in Online Shopping in Nepal: A Study Integrating Payment Issues, Scams, and Product Quality Mismatch

Introduction

Dear Respondent,

This survey is conducted for academic purposes as part of a Master's Degree (GRP). The objective of this study is to understand consumers' experiences, perceived risks, and post-purchase issues in online shopping in Nepal.

Your participation is voluntary, and all responses will be kept strictly confidential. The information collected will be used only for research purposes. You may choose to withdraw at any time.

Estimated Time: 5–7 minutes

Instructions

Please tick (☐) the most appropriate answer.

For statements, use the following scale:

Scale	Meaning
1	Strongly Disagree
2	Disagree
3	Slightly Disagree
4	Neutral
5	Slightly Agree
6	Agree
7	Strongly Agree

Section 1: Demographic Information

Age Group ☐ Below 20 ☐ 20–25 ☐ 26–30 ☐ Above 30

Gender ☐ Male ☐ Female ☐ Other

Education Level ☐ +2 ☐ Bachelor ☐ Master ☐ Above

Occupation ☐ Student ☐ Employed ☐ Self-employed ☐ Other

Online Shopping Frequency ☐ Rarely ☐ Sometimes ☐ Often ☐ Very Often

Preferred Platform *(Select all that apply)* ☐ Daraz ☐ Jeevee ☐ Hamrobazar ☐ Social Media ☐ Other

Section 2: Payment Issues

Source: Vaidya (2019) identified payment-related barriers as a key challenge for Nepalese online shoppers. Pandey (2025) confirmed that financial risk — including unreliable payment systems and security concerns — significantly affects online shopping behaviour. KC & KC (2024) documented structural weaknesses in Nepal's digital payment infrastructure, while Devkota et al. (2021) found hidden costs and unsafe payment systems among the top challenges. Pavlou (2003) established that perceived monetary risk arising from incomplete or distorted information during online transactions undermines consumer acceptance of e-commerce.

Code	Statement	1	2	3	4	5	6	7
PI1	I face problems during online payment	☐	☐	☐	☐	☐	☐	☐
PI2	Online payment systems are not reliable	☐	☐	☐	☐	☐	☐	☐
PI3	Payment failures happen frequently	☐	☐	☐	☐	☐	☐	☐
PI4	Refunds take a long time	☐	☐	☐	☐	☐	☐	☐
PI5	I feel insecure while making payments	☐	☐	☐	☐	☐	☐	☐
PI6	Hidden charges are common	☐	☐	☐	☐	☐	☐	☐
PI7	Payment options are limited	☐	☐	☐	☐	☐	☐	☐

Item-level sources:

- **PI1–PI3** (payment problems and unreliable systems): Vaidya (2019); KC & KC (2024); Devkota et al. (2021)
- **PI4** (slow refunds): Vaidya (2019); Pandey (2025)
- **PI5** (payment insecurity): Pandey (2025); Pavlou (2003); Chapagain & Aryal (n.d.)
- **PI6** (hidden charges): Devkota et al. (2021); Mathur et al. (2019)

- **PI7** (limited payment options): Vaidya (2019); KC & KC (2024)

Section 3: Online Scams

Source: Shrestha et al. (2025) studied how fraudulent experiences and consumer awareness shape trust and preference among Nepalese online shoppers, reporting over 2,000 scam cases with losses exceeding NPR 31 million. Kim, Ferrin, & Rao (2008) demonstrated that security concerns and trust in online vendors are critical antecedents of purchase decisions. Chapagain & Aryal (n.d.) documented phishing, fake sellers, and fraudulent payment gateways as prevalent threats in Nepal's e-commerce ecosystem.

Code	Statement	1	2	3	4	5	6	7
SC1	I am aware of online scams	☐	☐	☐	☐	☐	☐	☐
SC2	I worry about being scammed	☐	☐	☐	☐	☐	☐	☐
SC3	Fake sellers are common	☐	☐	☐	☐	☐	☐	☐
SC4	I have experienced or know scam cases	☐	☐	☐	☐	☐	☐	☐
SC5	Scams reduce my trust	☐	☐	☐	☐	☐	☐	☐
SC6	I verify sellers before purchase	☐	☐	☐	☐	☐	☐	☐
SC7	Platforms do not provide enough protection	☐	☐	☐	☐	☐	☐	☐

Item-level sources:

- **SC1** (scam awareness): Shrestha et al. (2025)
- **SC2** (worry of being scammed): Shrestha et al. (2025); Kim et al. (2008)
- **SC3** (prevalence of fake sellers): Shrestha et al. (2025); Chapagain & Aryal (n.d.)
- **SC4** (personal/known scam experiences): Shrestha et al. (2025)
- **SC5** (scams eroding trust): Kim et al. (2008); Shrestha et al. (2025)
- **SC6** (seller verification): Shrestha et al. (2025)
- **SC7** (insufficient platform protection): Chapagain & Aryal (n.d.); Shrestha et al. (2025)

Section 4: Product Quality Mismatch

Source: Vaidya (2019) found product quality to be the single most common problem in Nepalese online shopping, including delivery of wrong or substandard products. Devkota et al. (2021) reported that 41.6% of respondents cited products not matching what was shown online as the most common challenge. Tanjung, Sumarwan, & Krisnatuti (2025) confirmed that product mismatches, damaged goods, and misleading descriptions drive e-commerce consumer

Item-level sources:

- **CS1–CS3** (overall satisfaction and service quality): Vaidya (2019); Hipólito et al. (2025); Izumi et al. (n.d.)
 - **CS4** (continued usage intention): Pavlou (2003); Bianchi & Andrews (2012)
 - **CS5** (recommendation / word-of-mouth): Shrestha et al. (2025); Ghimire (2023)
 - **CS6** (satisfaction moderated by risk): Hipólito et al. (2025); Pandey (2025)
-
